Re: Larchmont Diner Security System.

Dear Gordon:

I want to let you know that you did an excellent job installing the security cameras in the Larchmot Diner. You organized the job efficiently, and skillfully, and you coordinated the job without disruption to the business. Your technicians were quick, neat and knowledgeable.

The picture on the 24/7 monitoring system is clear and detailed, and the computer program is easy to use. The system enables me to see everything while I am away from the diner. I have complete control over my staff and I also have accurate documentation of events. I am very pleased.

You supported this project with great enthusiasm. You have my highest recommendation. I wish you the best of luck with the success of First Alliance Systems. I hope to continue doing business with you in the near future. Thank you.

Sincerely

Joanne Zappavigna.
