Mr. Gisser,

I'm writing to thank you for your recent help in the investigation of a car jacking in our city. The suspect in the car jacking had been caught on video utilizing a old Freedom DVR recording system. The system's password had been forgotten by the business owner and the video couldn't be retrieved.

After locating you online, you promptly responded to my email request for help giving good advice and even employing your contacts in the industry to assist me.

Your help was instrumental in unlocking the DVR and getting the video that assisted our investigation.

Sincerely,

Det. Steven R. Allcock
