

June 22, 2007

Dear Gordon;

It's been almost 7 months since we put in our camera system and we are very content with the assistance it gives to our YMCA. With over 1000 sets of feet entering the building daily having additional eyes through certainly benefits us in so many ways. In the first month we had three situations, vandalizing, theft and abandoned child all spotted on camera and allowing us to take action. That's just in the first month! So often we find great reasons not to improve security because of the cost but it's an investment in our member's safety we are glad we made.

On a personal note I wanted to pass on to you my appreciation of the great work you did personally in explaining the features and benefits and processing the installation and training. Overall we could not be more satisfied and hope that other YMCA's find the resources, to make such important upgrades in their facilities.

I have been a YMCA staff member for 26 years, and have seen many changes in the YMCA movement. At one time our member's top concerns were cleanliness and equipment, today its security and feeling of belonging. Your system helps meet our member's top concerns and it is working great.

Thanks for your ongoing support, assistance as we prepare for installing additional cameras in our expanded facilities and parking lot.

Randy Grant
